I highly recommend Technology Contracting for all your audio/visual and computer needs. In my role as Associate Pastor, I have used them for all our computer service needs, and they provide us with fast and professional service. We were also thoroughly pleased with the sound system that they installed in our fellowship hall. On a personal level I had them install a custom home theater system. Not only was the service and equipment of the highest standard, but they crafted an aesthetically pleasing design for our particular odd-shaped room. They do a great job at the best price!

Dean Defino

**Associate Pastor, Trinity United Methodist Church
Professor of Computer Science, Salisbury State University**
